Blue Light Seminars

Previously Offered

Internet
We had a two and a half hour introduction to the Internet.

Ubuntu Gutsy Installation
We had a four hour review of how to install the latest release of Ubuntu, Gutsy Gibbon.

Social Software
We showed Jonathan Stray’s presentation which was originally presented at Town Hall in February.

VirtualBox
We had a two hour introduction to installing, configuring, and using VirtualBox for enabling multiple operating systems running under Ubuntu.

Version Control
Jason gave an introductory workshop on how to use Subversion by giving a real-time example.

Quality of customer service
