

Expectations

Dear ,

I received your email from the Auroville Professional Volunteer Service. Thank you for your interest in Auroville and Blue Light. If you haven't already checked out the links below feel free to do so to get an idea what the Blue Light project and team is about.

http://www.auroville.org/education/avis/avis_professional.htm <http://bluelightav.org/> <http://wiki.bluelightav.org/>

To get to know you better would you mind answering a few questions? This will help you get clear what you want and help us see whether your involvement fits with Blue Light's vision. We might find that your skills fit perfectly or if not we can see where else your involvement would be a great help in Auroville.

Please tell us a bit about your prior computer-related projects. Can you give a brief outline?

What makes you want to come and stay with us in Auroville?

Why is the Blue Light project of special interest to you?

What is your intended time frame for staying in Auroville? How many months? Which time of the year? If you enjoy Blue Light do you envision working full time with us?

Can you support yourself financially during your stay in Auroville (We recommend volunteers to budget between 8000 and 10 000 INR (Indian Rupees) per month - about 120 - 150 Euros or 190 - 230 US\$ per month (Exchange rate 68 Rs per Euro or 43 Rs per US\$). This amount can vary depending on your life style. You will need this money for accommodation, transport, meals etc.)?

If you have any questions feel free to ask.

Hope to hear soon from you

For the Blue Light Team

Juergen
